August 24, 2026

Golden Gays Manila Foundation

57 Antipolo St. Pasay City, 1301

To whom it may concern

Dear Sir/Madam,

We are NSTP-CWTS students from the University of the Philippines College of Human Kinetics, Diliman, Quezon City. As part of our academic requirements, we are tasked to implement our nation-building community engagement project entitled “**Rampanalo: Audiovisual Art as a Celebration of Pride and Power for the Home of the Golden Gays**”. Said student initiative shall be held on October 5, 2026, with the aim of fulfilling the following objectives:

1. Promote self-expression and creativity through movement, performance art, and fashion
2. Provide a platform for elder queers to share their stories and perceive solidarity from the queer community
3. Strengthen overall support for the queer community and increase awareness for the struggles and experiences

To accomplish these objectives, we offer two options for the Golden Gays community. The foundation is to deliberate which activity would be more feasible: 1.) to participate in the creation of a documentary on the foundation, or 2.) to facilitate a fundraising workshop on the foundation

Crucial to the accomplishment of these objectives, we need your kind and enabling help in the conduct of the production and filming or workshop development on the first two weeks of October at your foundation. The project will involve at least twenty local voluntary participants, residents composed of your beneficiaries, whom we envision to benefit much from this initiative. We have attached our planned itinerary details for your perusal.

At this point, we kindly ask you to choose only one (1) of the two options above; either the documentary or the workshop, whichever you believe would be more suitable and beneficial for your community. We have left the specific details of each option attached for your input and preference.

Activity	Objectives	Request for cooperation
Documentary filming	To produce a documentary of the community's joys, challenges, and aspirations	Voluntary participation from the members of the Golden Gays to share their experiences
Workshop facilitation	To facilitate a creative workshop in the Golden Gays community	Participation among the members to engage in the activity and share their experiences

Any revenue gained from either of these activities will be handed over **in-cash** for the community.

With this juncture, may we please request on your good end to be amenable to interviews, filming, and allow us to document your location and your beneficiaries (if you choose the documentary), or to facilitate the workshop sessions (if you choose the workshop), to help us realize our nation-building project within the said time period. Your kind help would mean so much for us because it will not only help us fulfill our academic requirements, but will also enable us to realize our nation-building aspirations, and more importantly deliver the benefit-outcomes of our project for the community.

Thank you very much!

Very truly yours,

Christa Liofe Ducos
